

DIESEL MOTOR FLUSH

SN90107-KS-34902

DIESEL MOTOR FLUSH is a professional concentrated treatment aimed to break down and clean injector, valve and combustion chamber deposits in a fast and efficient way.

BENEFITS

- Cleans the entire fuel rail, injectors, valves and combustion chamber deposits
- Restores power and performance
- Improves combustion and reduces fuel consumption
- Protects the fuel system against corrosion
- Reduces emission of hazardous exhaust gases
- Lubricates the fuel system

USAGE

Can be used on all older and modern diesel engines to prevent and eliminate problems like uneven running or idling, partial load knocks or excessive (black) exhaust emission.

DIRECTION

Pour the contents of one bottle in a preferably clean or just replaced fuel filter and let the engine run directly on the product.

DOSAGE

One 500 ml bottle is sufficient for most curative and preventive use. In extreme cases a double doses can be used. To maintain a clean fuel system and an optimal performing engine regular use of KROSS diesel treatments is recommended.

TECHNICAL SPECIFICATION

Test	Unit	Average value
Density	g/cm ³	0,802
Flash point	°C	> 61°C
Colour		Clear to amber
Odour		Characteristic
