DIESEL TREATMENT

SN90108-KS-34909

DIESEL TREATMENT is a multi-purpose diesel additive that cleans the complete fuel system, increases cetane number and restores power and performance. Contains a lubricity additive to lubricate the diesel fuel pump in case of low sulphur fuel.

BENEFITS

- Cleans the entire fuel system including injectors.
- Restores power and performance.
- Improves combustion and reduces fuel consumption.
- Increases cetane number.
- Protects the fuel system against corrosion.
- Lubricates the diesel fuel pump.
- Reduces emission of hazardous exhaust gases.

USAGE

For all diesel engines (including common rail) with or without turbochargers running on low or normal sulphur level diesel fuels.

DIRECTION

Pour the required contents in the fuel tank before filling it with fuel.

DOSAGE

One bottle treats 40 to 60 litres of diesel fuel.

Normal use: one bottle every 2000 km.

Intensive or sportive use: one bottle for each tank filling.
