

MOTOR OIL TREATMENT + PTFE (TEFLON®)

SN90114-KS-34906

PTFE (Teflon) based oil additive significantly reducing friction, wear and engine noise. Reduces fuel and oil consumption and restores engine power.

BENEFITS

- Reduces friction and wear due to formation of a Teflon lubricating film inside the engine
- Reduces fuel consumption
- Restores engine power and optimizes performance
- Reduces emission of hazardous exhaust gases
- Provides emergency lubrication
- Reduces engine noise level
- Increases engine lifetime

USAGE

For all gasoline, diesel and LPG engines with or without turbochargers. Can be mixed with all commercially available engine oils. Does not clog filters and is not harmful for catalytic converters.

DIRECTION

Add contents of one bottle to the warm motor oil, preferably shortly after oil change. Make sure the oil contents do not exceed the maximum oil level in your engine.

DOSAGE

One bottle treats 3 to 6 litres of motor oil.
